SUMMARY OF WORK EXPERIENCE

After 14 years in project development, mostly at a senior management level and a proven track record with a variety of UK & overseas industrial companies, I started working with charitable organisations. That coincided with my move towards 'Living with sensitivity'.

Over the next 10 years, still working in project and group development, I also discovered Shiatsu and English teaching. These now form a significant part of my work.

UNIVERSITY AND PROFESSIONAL STUDIES

Graduate:

- * B.Sc. Chemical Engineering, Birmingham University (1971-74)

Post-graduate:

- * D.M.S. Management Diploma, NELP, London (1975-76)
- * P.G.C.E. Teaching Diploma, Institute of Education, University of London (1986-87)

Other:

- * British Sign Language (Stage 1), CACDP, University of Durham (1994)
- * Community Consultant Training Certificate, Middlesex University (1995-96)
- * Shiatsu Diploma Course European Shiatsu School (1995-96)
- * Diplom des Österreichischen Dachverbands für Shiatsu (1999)

EMPLOYMENT HISTORY (since University) - reverse chronological order

This has been predominantly in project development in both staff and contract conditions in not-for-profit organisations and private sector companies. For details of my work on projects and other initiatives over the last 15 years, see ['Living with Sensitivity'](#)
